

PML— Alphabetical Guide

Effective July 1, 2008

You can make the most of your pharmacy benefit plan and control your prescription medication costs by using this Preferred Medication List. Be sure to share this list with your doctor to select cost-effective medications that are clinically appropriate to treat your condition or maintain your health.

This Preferred Medication List (PML) was developed by Walgreens Health Initiatives, your plan sponsor's pharmacy benefit manager, under the direction of a committee of physicians and pharmacists. All medications on this list are preferred by your plan.

Understanding Your Tiered Copays

Your pharmacy benefit plan has three categories—or tiers—of drugs that determine your costs (copays):

1st tier: Generics. Generics contain the same active ingredient as their brand-name equivalents and offer the same effectiveness and safety. Some generics use a brand name instead of a chemical name. Both have the lowest copay.

2nd tier: Preferred. Medications in this tier have been selected by your pharmacy benefit plan as preferred-brand drugs. These drugs have higher copays than generics but are less costly than nonpreferred medications on the third tier.

3rd tier: Nonpreferred. Because they have a generic version or a second-tier alternative available, nonpreferred medications have the

highest copays and are not listed on the PML.

Whenever possible, have your doctor consult this guide for the lowest cost brand-name and generic medications available for your therapy. The generic and preferred medications here are listed alphabetically. Preferred brand drugs appear in UPPERCASE letters; generic medications appear in lowercase letters or with the first letter Uppercase. To keep an eye on costs, remember to always ask your doctor if a generic medication is right for you.

All medications on the PML have been approved by the Food and Drug Administration (FDA).

Additional Information

Not all medications are listed in this PML. Medication coverage and copays may vary from plan to plan. For more information, register on MyWHI.com and click on Check Drug Coverage/Cost to verify your coverage. The PML is subject to change without notice.

Call Us With Questions

For assistance, please call the Walgreens Customer Care Center toll free at 800-207-2568.
